PROFILE

As a highly motivated Software Developer, I bring a vibrant background in the culinary arts, seamlessly transitioning into the dynamic world of coding. My journey is marked by a distinctive problem-solving approach and a creative flair that breathes life into every project. A collaborative spirit defines my work, with an adept ability to infuse humor and joy into teams, creating a positive and thriving environment.

My achievements include navigating through coding challenges, showcasing determination, and achieving continuous growth through engaging late-night coding sessions. These experiences reflect my commitment to excellence and a resilient attitude towards overcoming obstacles. I thrive on precision in code, and my passion for innovation is matched only by my dedication to fostering a collaborative atmosphere where everyone's strengths are maximized.

Eager to contribute these qualities to software development projects, I am poised to make meaningful impacts and embrace the opportunities for growth that lie ahead.

EXPERIENCE

Dev Academy Aotearoa, Wellington — Student

17-week programme focuses 800 hours+ on full stack JavaScript/Typescript with ES5/6/7, Node.js, React, Knex.js, Express.js, Object-oriented Programming, Functional Programming, Relational databases, HTML5, CSS3, as well as pair programming, agile, unit testing, end-to-end testing and test-driven development.

HUMAN SKILLS

Self-Awareness: Possessing a deep understanding of oneself, I am attuned to my strengths, weaknesses, and the impact of my actions. This self-awareness allows me to navigate challenges with a clear and balanced perspective, fostering personal and professional growth.

Problem Solving: Thriving on challenges, I approach problem-solving with creativity and adaptability. My ability to dissect complex issues, coupled with a strategic mindset, enables me to find innovative solutions that contribute to project success.

Empathy and Compassion: Infusing empathy and compassion into my interactions, I build meaningful connections with colleagues and stakeholders. This not only enhances teamwork but also ensures a supportive and inclusive environment where everyone's perspectives are valued.

Team Player: Collaboration is at the core of my approach. I thrive in a team environment, valuing diverse contributions and fostering a spirit of cooperation. My dedication to collective success makes me an invaluable asset to collaborative projects.
